# About This Download

## PRINTING

The majority of our downloads are formatted to print on 8.5x11" paper unless otherwise noted. You may print at home or a local print shop. We recommend using a recent version of Adobe Acrobat PDF Reader to view and print your files. It is available for free online. If you run into problems with pages being cut off, select "fit to page" in your print dialogue box to make sure it fits on your page correctly.

To print large page sizes (anything larger than 8.5x11"), we recommend going to a local print shop like Kinko's, Staples, AlphaGraphics, etc. and ask them to print your file as a black and white "engineer print" or "blueprint." These larger prints are big, fun and fairly inexpensive.

If the staff at your print shop asks you about your rights to reproduce this work, you will find a copyright release below. Or you can tell them you downloaded these files for personal use from [comefollowmefhe.com](http://comefollowmefhe.com) and they can look us up to see if you do have the rights to print the copies.

## COPYRIGHT RELEASE

# Sheet Protector Puzzles

These puzzles are a great resource to have on hand for church bags, traveling, or quiet time at home. Simple, cute, and entertaining!

To assemble the puzzles for play, simply print the puzzles and the background pages. (We recommend printing on cardstock for durability.) Insert background pages into sheet protectors and cut puzzles into individual pieces. Keep the puzzle pieces in the sheet protector with the background page until your children are ready to use.

When your children are ready to put the puzzles together, they take the puzzle pieces out of the sheet protector and leave the background page in the sheet protector. Then, they match each piece on top of the background page.
