About This Download

PRINTING

The majority of our downloads are formatted to print on 8.5x11" paper, unless otherwise noted. You may print at home or at a local print shop. We recommend using a recent version of Adobe Acrobat PDF Reader to view and print your files. It is available for free online. If you run into problems with pages being cut off, select "fit to page" in your print dialogue box to make sure it fits on your page correctly.

To print large page sizes (anything larger than 8.5x11"), we recommend going to a local print shop like Kinko's, Staples, AlphaGraphics, etc. and ask them to print your file as a black and white "engineer print" or "blueprint." These larger prints are big and fun, and fairly inexpensive.

If the staff at your print shop asks you about your rights to reproduce this work, you will find a copyright release below. Or you can tell them you downloaded these files for personal use from comefollowmefhe.com and they can look us up to see you do have rights to print the copies.

Get a paper towel wet, then ring it out so it is just damp. Fold it in half a couple of times so it's small enough to fit into a small, resealable bag. Place a seed in one of the folds and then put the paper towel and seed in the bag and seal it up. Tape it to a window that gets a lot of sun and watch for your seed to sprout and grow within a few weeks! You can also set the bag close to a sunny window if you don't want to tape it to your window. It may just take a little longer to sprout.
